## 02. FORMATION - OPTION B

### SPANISH CLASSES

- Classes will be conducted by Vos Buenos Aires Spanish School.
- There will be one professor for beginners and another for intermediate–advanced students.
- Credits may be granted if necessary.
- Location: Huerta CoWorking Dorrego 2133, Palermo
- The concepts outlined on the next two pages serve as guidance for both students and professors; however, they will be adapted to the group's needs throughout the course.

## BEGINNER LEVEL

A1 – Beginner: At this level, students are starting their journey in the Spanish language. They can understand and use familiar and everyday expressions, introduce themselves and others, answer simple questions, and interact at a basic level as long as the other person speaks slowly and clearly.

A2 – Elementary: Students at this level can communicate in simple and everyday situations that require direct exchanges of information related to common topics and basic needs such as shopping or going to the doctor. People at this level can talk about themselves and their environment in the past tense.

## INTERMEDIATE - ADVANCED LEVEL

B1 – Intermediate: Here, students are capable of understanding and producing simple texts in familiar situations. They can participate in conversations on familiar topics, express personal opinions, deal with problems that may arise when traveling in Spain or another Spanish-speaking country, describe experiences, dreams, and ambitions, as well as opinions and plans.

B2 – Upper Intermediate: At this level, students have a good command of Spanish and can understand complex texts, participate in more advanced discussions on a variety of both concrete and abstract topics, express themselves fluently and spontaneously in social interactions with native speakers, and produce clear and detailed texts on various topics, expressing advantages, disadvantages, and their personal opinion. Level B2 is required in many universities to study in Spain.

C1 – Advanced: Students at this level have a high degree of fluency and accuracy in the language. They can understand extensive and complex texts, as well as express themselves fluently and structurally in formal and informal situations, demonstrating fluency and spontaneity.
